A recent graduate in Information Technology with a strong interest in web development. Skilled in HTML, CSS, and JavaScript, with experience using React as a framework to build interactive and responsive user interfaces (UI). Proactive, creative, and committed to continuous learning. Ready to apply analytical skills and attention to detail from previous experience to a web development role, contributing positively and adapting in a dynamic work environment.

EDUCATION

Front-End Web Development, Dibimbing   Sep 2024 – Present
- Learning HTML, CSS, JavaScript, Typescript, Git, React, Redux, and Tailwind to build interactive and responsive user interface (UI), with a focus on front-end development best practices and design principles.

Bachelor in Information Technology, Institut Teknologi dan Bisnis Bina Sarana Global   2020 – 2024
- GPA: 3.66/4.00
- Concentration: Software Engineering
- Studied key concepts in software development, including programming, algorithms, databases, system design, and technology project management.
- Final Project: Developed a Gamified Smart Schedule application, designed to help users manage daily schedules through a gamification approach.

WORKING EXPERIENCES

Shipping Officer, PT. Victory Chingluh Indonesia   Dec 2018 – Jul 2024
- Created delivery orders with high accuracy using Excel, ensuring timely and efficient shipments with a 99% order accuracy rate.
- Monitored stock availability through the SAP system, improving inventory accuracy by up to 95%.
- Tracked and reported shipment statuses regularly, enhancing operational efficiency by 20%.
- Coordinated with the logistics team to ensure on-time deliveries, reducing shipment complaints by 15% through improved communication and quick response times.

Sales Assistant, PT. Midi Utama Indonesia, Tbk   Jun 2018 – Dec 2018
- Delivered excellent customer service and clear product information, boosting customer satisfaction scores by 15%.
